Workers' Rights Amendment Win Boosts Labor's Efforts At Capitol

The labor movement stayed on the offensive even though the return to regular legislative activity post pandemic was plodding and methodical.

Years of work paid off for all working families in January 2023 with the passage of the paid time off for all legislation. The bill passed both chambers during the lame duck session days before the new legislature was sworn in. It begins January 2024 – and its positive effects on the state's workforce will be seismic.

Among other major pieces of legislation affecting workers in 2022, bills expanding protections against wage theft and the ballot language bill for the historic Workers' Rights Amendment.

Following up in 2023, labor had a comprehensive slate of legislation to address issues involving affiliates as well as exploring solutions to the continual challenges to economic justice issues.

The Illinois AFL-CIO and unions passed bills from enhancing Prevailing Wage for construction workers and applying it to green jobs, to requiring neutrality from charter schools on organizing and protecting picketing and protest from outside interference. The labor movement also backed successful efforts to continue the march toward full voter enfranchisement, protect temporary workers, and enhance transparency around equal pay issues.

Nearly Two-Year Campaign Culminates With Workers' Rights Constitutional Amendment

After nearly two years and a roller coaster political environment, the labor movement made history by passing the Workers' Rights Amendment to the Illinois Constitution. The amendment is the first of its kind guaranteeing the right to organize enshrined in a state constitution.

The amendment added Article I to the Bill of Rights, saying in part: "Employees shall have the fundamental right to organize and to bargain collectively... No law shall be passed that interferes with, negates, or diminishes the right of employees to organize and bargain collectively."

The ballot language passed in 2022 with bipartisan support, and Illinois voters passed the amendment with nearly 59 percent of the vote that November.

The constitutional change is the most far-reaching and positive for workers in the country. It will effectively keep future anti-worker politicians from repealing our hard-won rights and protections for future generations.

Paid Leave for All

After five years of negotiations between labor, worker advocates, and business groups, Paid Leave for All passed the General Assembly and was signed by the Governor in March 2023. This legislation provides one hour of paid time off for every forty hours worked for up to 5 days per year. This leave may be used for any reason and is provided to all employees across the state. Too often, Illinois workers do not have the time off to take care of their own mental or physical health, attend their children's school events, or spend time with aging parents. Paid Leave for All Workers goes into effect January 1, 2024 and will help working families across the state. Our efforts as a labor movement to elect pro-worker representatives makes policies like Paid Leave for All a reality across Illinois.

2023 Budget

The 2023 budget passed in the final hours of the spring session along party lines. The budget accounts for \$50.6 billion in projected revenues and \$50.4 billion in expenditures resulting in a \$183 million surplus. Original predictions calculated a \$728 million surplus, however, in early May that prediction was adjusted to \$183 million, creating a stricter budget with several items on the chopping block. Fortunately, our collective efforts to elect pro-worker legislators helped make labor-friendly budget items, especially given the circumstances.

Some budget highlights:

- \$1 million to IAM Local 701 to assist with construction at the Aurora training center.
- \$2 million to HIRE360.
- \$2 million to UNITE HERE Local 1 appropriated for facility renovation of their training center.
- \$2.3 million to the University of Illinois Labor and Employment Relations Program including \$1.5m for certificate programs and \$800k for degree programs.
- \$20 million to the Grocery Initiative to fight food insecurity statewide.
- \$100 million to Rebuild Illinois.
- \$200 million additional contribution to the pension funds.
- \$250 million to early childhood education program "Smart Start". Funds will tackle "preschool deserts" and includes funds dedicated to stabilizing the childcare workforce.
- \$2.50 per hour wage increase for Direct Support Professionals.

IDOT Multi-Year Program: Highway and Multimodal

In July 2023, the Illinois Department of Transportation

2022-2023 SUMMARY

released their multi-year program for 2024-2029. This is the largest investment yet at \$41.5 billion for infrastructure improvement and expansion. This includes \$27 billion to road improvements and nearly \$14 billion for transit, rail, port, and aero projects. This investment will create projects across the state and countless hours of work for union tradespeople.

Energy Negotiations

This session development and advancements in the carbon-free energy sector were a priority of the IL AFL-CIO. Several bills passed through the General Assembly that authorized and encouraged growth in the renewable energy sector, and in turn would create more union jobs. During these negotiations, labor groups and environmental groups were both at the table but lacked compromise. Some Democratic legislators voted against these labor-backed energy bills, while labor picked up Republican support on these issues. This changed several legislators scores in this year's voting record.

Two Illinois AFL-CIO priority bills this session were at the core of these energy negotiations:

- SB 76 would remove the moratorium on nuclear construction allowing Illinois to build modular nuclear reactors and create more union jobs in the carbon-free energy sector. The Governor vetoed the bill, asking the General Assembly to refine the language. The Governor stated that he supports small scale nuclear production but is opposed to large nuclear reactors in Illinois.
- HB 3445, the energy omnibus bill, received an amendatory veto.

The amendatory veto removed provisions gave Ameren, the incumbent energy agency in Central and Southern Illinois, a right of first refusal on new transmission line projects in the MISO region. Without this provision, the state opens the project to out-of-state contractors who do not follow labor standards or employ a union workforce.

The bill tackled several issues including:

- Changing the Adjustable Block Grant program to ensure that public colleges and universities can receive renewable energy credits for solar projects.
- Requires the Illinois Power Agency to conduct studies on a proposed utility-scale offshore wind project (Rust Belt to Green Belt).
- Requires IPA studies on the rate impact of energy storage system, battery storage systems, and utilizing renewable energy credits.
- Establishes an Illinois Commerce Commission workshop on thermal energy networks.

Across industries and across the state, pro-worker bills were priority legislation for many legislators as unions were successful in advocating for bills expanding protections and opportunities for workers from nearly every sector:

- Freelance workers: for years, freelancers worked without written contracts, and faced significant wage theft or untimely payments. The Freelance Worker Protection Act now provides writers, consultants, graphic designers and many more workers with stronger protections and pathways to combat violations.
- Temporary workers: the Temp Worker Fairness and Safety Act creates stronger protections for workers on the job, includes an equal pay for equal work provision and outlines the process for direct hiring, requires staffing agencies to inform temporary workers about labor disputes at their job sites and their right to refuse said position, allows worker centers and unions to take civil action against staffing agencies who violate provisions of this act.

- Education workers: numerous bills passed impacted teachers and school staff, one includes the Charter School Union Neutrality Clause. All charter schools must include a union neutrality clause in their application for licensure or license renewal.
- First Responders: During the pandemic, Chicago police officers, firefighters, and EMTs were not given disability benefits if they fell ill with COVID-19 while on the job. Workers faced a range of health challenges from unavoidable and consistent exposure to COVID-19 while on the job. Now, they will finally receive the benefits they deserve.
- Service and hospitality workers: the Casino Employee Fairness Act allows workers to apply for non-gaming positions in Illinois casinos regardless of their past with the justice system. The Illinois Gaming Board worked with Labor to guarantee that this bill applies to every non-gaming position from housekeeping and waitstaff to elevator operators and maintenance staff.
- Public sector: for years Direct Support Professionals, who care for Illinoisans with physical and intellectual disabilities in community residences, did not receive wage increases, even as the budget for these centers increases. Many facilities are understaffed, often due to low wages and emotional and physical burnout. Through years of hard work, the budget included \$2.50 per hour wage increases towards base wages.
- Prevailing wage: there were several prevailing wage bills that ranged across sectors, from construction to painting to electrical work, that passed the General Assembly and were signed by the Governor. Hard work from all in the trades made these wins, among many others, possible.

1. **Veteran Service Recognition Act**

This bill would provide vital protections for noncitizen veterans who have served our country with honor. The Act puts forth a series of provisions that would help repatriate our military veterans and prevent the unjust and arbitrary deportation of veterans in the future. Rather than leaving noncitizen veterans to navigate our complex immigration system on their own, H.R. 7946 would require U.S. Citizenship and Immigration Services the Department of Defense to facilitate opportunities for recruits and veterans to obtain U.S. citizenship and establish a committee to advise on any case involving the removal of a service member or veteran.

2. **VA Employee Fairness Act**

This bill provides the same collective bargaining rights to tens of thousands of frontline employees at the Department of Veterans Affairs who care for our nation's veterans as other federal employees at the VA.

3. **Rights for the TSA Workforce Act**

The Act would provide TSA officers with the same statutory rights to union representation, due process and fair pay under title 5 of the US code as most other federal workers, including uniformed officers at other Department of Homeland Security agencies.

4. **Rail Workers Sick Leave**

Unlike many workers, railroad employees are not guaranteed a single paid sick day. This resolution provides for seven days of sick leave for railroad employees.

5. **Presidential Election Reform Act**

The Presidential Election Reform Act (H.R. 8873) would help prevent another attempted coup following a Presidential election by ensuring that the electoral votes tallied by Congress accurately reflect each state's public vote for President. It makes clear that the Vice President does not have the power to accept or reject disputes over electors and that state legislatures cannot override the popular vote in their states.

6. **Postal Service Reform Act**

This bill would bring financial stability to the Postal Service. First, it eliminates the mandate that the Postal Service pre-fund its retiree health care benefits decades in advance, a requirement asked of no other public or private agency. Second, it adopts private sector best practices by maximizing the integration of postal annuitants into Medicare – a program to which the Postal Service and its workers have contributed over \$34 billion. Additionally, the legislation benefits the public by codifying the mandate to provide six-day mail delivery.

7. **Omnibus Act of 2023**

This omnibus package provides a much needed increase in non-defense discretionary funding and critical investments in Medicaid, education, children's health and worker protection programs. After nearly 10 years, the National Labor Relations Board (NLRB) will finally receive a desperately needed boost in funding. The bill also includes increased funding for Registered Apprenticeships, projects authorized by the Infrastructure Investment and Jobs Act, and funds to implement the CHIPS and Science Act of 2022. It also includes the Pregnant Workers Fairness Act and supplementary funding for the 9/11 World Trade Center Health Program.

8. **National Defense Authorization Act FY23 (Amend 454)**

This amendment prohibits the Executive Branch from moving competitive service positions to excepted service without the agreement of Congress and prevents the politicization of civil service jobs.

9. **National Defense Authorization Act FY23 (Amend 3)**

This amendment establishes a contracting preference for contractors who commit to remaining neutral in organizing campaigns, commit to not break strikes, or who have a collective bargaining agreement.

10. **Inflation Reduction Act**

By making historic investments in domestic energy production and manufacturing, bringing down the cost of prescription drugs and expanding coverage under the Affordable Care Act, this bill offers our country a real chance to build a safer, healthier, and cleaner future. The Inflation Reduction Act will dramatically lower the cost of clean energy, positioning the U.S. to make deep carbon emission reductions, while preserving and creating millions of family supporting jobs, and manufacturing more critical technology here at home. The package also initiates major health care reforms by authorizing Medicare to tackle the skyrocketing cost of prescription drugs and preventing premium hikes for 13 million Americans covered under the Affordable Care Act. Finally, the bill provides much needed reform to our tax system, which has allowed the mega-rich and the biggest corporations to pay far too little for far too long.

U. S. House Bills / Votes - 2022

11. Honoring Our Promise to Address

Comprehensive Toxics (PACT) Act of 2021

The PACT Act addresses a number of VA healthcare issues. It extends VA healthcare eligibility to veterans and extends presumptions to conditions relating to burn pit, toxic-exposure and Agent Orange exposure. Veterans will benefit from a simplified eligibility process and VA staff will be able to process their claims without delay.

12. FAIR Act

The AFL-CIO opposed the vote for the Fitzgerald Amendment to the FAIR Act as it was a blatantly anti-union amendment that sought to undermine union workers by voiding their negotiated dispute resolution procedures.

13. CHIPS and Science Act

The CHIPS Act of 2022, which contains \$52 billion for investment in domestic semiconductor funding, including \$2 billion in funding for production of mature semiconductor technologies in the United States that are necessary to the production of cars, trucks, and agricultural equipment.

Voting Record: Key Tool for Political Accountability

The Illinois AFL-CIO Voting Record is the official voting record of Illinois legislators on issues of importance to working families and their unions during 2022-23. The Voting Record is compiled on behalf of the Illinois AFL-CIO Executive Board.

The goal of the Labor Political Program is to educate and mobilize union households and working families to elect allies at all levels of government in order to preserve, protect and advance the cause of working people.

Union leaders, rank-and-file members and labor lobbyists seek to advance economic and social justice through laws, orders, policies, and appointments accomplished through government action.

The Illinois AFL-CIO Voting Record, published every other year, is a key tool in holding politicians accountable.

Union members spend many days, nights, and weekends volunteering their time to elect candidates to public office. It is critical that we hold them accountable for their actions. Endorsements from the Illinois AFL-CIO are earned by supporting issues important to working people – as illustrated in this document. Legislators are given a score based on the level of support for that year and over the course of their term in the General Assembly or Congress.

Since 2012, the Labor Political Program has had more than 850,000 conversations with union members and more than 33,000 volunteer shifts have been covered by union members and their families.

Currently, the Illinois Senate has 40 Democrats and 19 Republicans. In the Illinois House, the Democrats also hold a veto-proof supermajority with a 78-40 advantage. Democrats Dick Durbin and Tammy Duckworth are the U.S. Senators representing Illinois. The congressional delegation is made up of 14 Democrats and three Republicans.

We wish to extend our appreciation to all incumbent lawmakers who supported working families. In making recommendations for endorsement, the legislator's overall record, including previous legislative sessions, committee votes and positions on issues may be considered.

R = Right / W = Wrong / NV = No Vote
INC = Incomplete / E = Excused

Lifetime = support percentage for accumulated votes cast in General Assembly
Year = support percentage for that specific year
